

Why should the NAB take away what us XM listeners pay for? I am an over-the-road truck driver and I heavily rely on those traffic and weather channels to get informed about the particular route I need to travel. The FM stations are very limited to their information and the commercials they have in them are longer than the actual reports. XM's reports are much more in-depth. NAB cannot and will not take away XM's traffic and weather channels. As a loyal 2-year XM listener and subscriber, I absolutely OPPOSE petition 04-160. The NAB will not win.
